

Financial & Insurance Services Inc.

Once you retire, are you going to live the same lifestyle you do today?
Yes-No

Hi my name is Tony Gutierrez.

I focus on providing Realtors, Loan Officers, and Business Owners a vehicle to help them fund their retirement plan and at the same time provide financial protection for their family once they have past.

Let's face it, if you are not funding your retirement plan, who is?

1-Are you relying on just Social Security?

2-Do you know how "Tax Differed Accounts" can impact your income once you begin to take distributions?

3-If your family depends on your income 100%, what's going too happened once you have past?

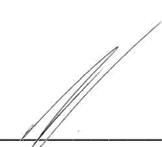

What if there was a way to fund your retirement plan and get income that can be tax free once you begin to take distributions and provide financial protection for your family if you don't make it to retirement?

When funded properly, a Life Insurance Retirement Plan (LIRP) provides you with the opportunity for it to Grow Tax Deferred, provide Tax Free Distributions, and can provide guaranteed financial protection for your family if you pass away before getting distributions for retirement.

You have all my contact information below.

If you would like to get more information, please complete the questionnaire and send it back to me. Then let's get together for a cup of coffee or schedule a Live Zoom Meeting and get to know more about this opportunity available to you.

Let me show you were I am putting my personal and families money.

Antonio Gutierrez

Have a great Day!
